

HR360

Mobile App — UX & Screen Architecture Guide

A complete blueprint for every screen, section, and layout in the HR360 React Native (Expo) application.

User Roles

1

Design System

Version 1.0 · React Native (Expo) · Django REST Framework

This document defines every screen, section, and layout zone of the HR360 mobile application. It is the single source of truth for frontend developers — describing what each screen contains, how it is structured, what data it surfaces, and how it behaves for each user role. No screen should be built without referencing this guide.

Contents

1	Navigation Architecture — App Shell & Tab Structure
2	Authentication Screens — Login & Onboarding
3	Dashboard — Role-Adaptive Home Screen
4	Employee Management — Directory, Profiles & HR Actions
5	Attendance — Clock, Records & Face Recognition
6	Leave Management — Requests, Approvals & Balances
7	Payroll — Slips, Summaries & History
8	Recruitment — Jobs, Applications & AI Screening
9	Performance & Appraisals — Reviews & Analytics
10	Departments & Organisational Structure

Navigation Architecture

App shell, tab bar, and routing strategy

HR360 uses a **role-adaptive bottom tab navigator** as its primary shell. The tabs visible to a user depend entirely on their role. All screens live inside a single authenticated navigator — unauthenticated users see only the Auth Stack.

1.1 Root Navigator Tree

Navigator	Screens / Children	Condition
Root Stack	Auth Stack App Stack	Always
Auth Stack	Login, Register (if enabled)	user not authenticated
App Bottom Tabs	Home, Employees, Leave, Attendance, More	authenticated
Home Tab Stack	Dashboard → Notifications	all roles
Employees Stack	Employee List → Detail → Add/Edit	HR + Admin only
Leave Stack	Leave Requests → Leave Balance → New Request	all roles
Attendance Stack	Clock In/Out → My Records → All Records	all roles (scoped)
More Stack	Payroll, Recruitment, Performance, Departments, Settings	role-scoped

1.2 Bottom Tab Bar Design

- 5 tabs maximum visible at once. Overflow items live in a 'More' tab.
- Active tab: icon filled + label in #0A66C2 (primary blue). Inactive: outlined icon + #64748B gray label.
- Notification bell tab badge: red dot with unread count when notifications exist.
- Tab bar background: white, top border 1px #E2E8F0, no shadow on Android.
- Icons: use a consistent icon library (e.g. Lucide or Ionicons). Never mix libraries.

1.3 Tab Visibility by Role

Tab	Employee	HR	Admin
Home (Dashboard)	✓	✓	✓
Attendance	✓ (own)	✓ (all)	✓ (all)
Leave	✓ (own)	✓ (all)	✓ (all)
Employees	✗	✓	✓
More → Payroll	✓ (own slip)	✓ (all)	✓ (all)
More → Recruitment	✗	✓	✓
More → Performance	✓ (own)	✓ (all)	✓ (all)
More → Departments	✗	✓ (view)	✓ (manage)
More → Settings	✓	✓	✓

2

Authentication Screens

Login, session handling, and onboarding

The auth flow is minimal by design — one entry point, clean and professional. No social logins. No registration flow unless explicitly enabled by Admin.

Login Screen

All Users

● App Logo + 'HR360' wordmark	Centred, navy colour, top 25% of screen
● Welcome headline	'Welcome back' + subtitle in muted gray
● Email input field	Blue focus border, keyboard type: email-address
● Password input field	Show/hide toggle icon on right edge
● Primary CTA button	Full-width blue 'Sign In' button, 48px height
● Error banner	Red inline message below inputs on failed login
● Loading state	Spinner inside button, button disabled during request

Layout Rules

- Screen background: white. No hero blobs on auth screens — keep it clean.
- Logo centered horizontally, 64px height, top margin 20% of screen height.
- Input fields: 48px height, border-radius 10, border 1px #E2E8F0, focus border 2px #0A66C2.
- Sign In button: background #0A66C2, white bold text, border-radius 10, 48px height.
- On successful login → detect role from profile response → route to role-specific Dashboard.

3

Dashboard

Role-adaptive home screen — the command centre

The Dashboard is the first screen after login. It adapts completely based on user role. An Admin sees company-wide KPIs. HR sees team-level summaries and action items. An Employee sees their personal snapshot. **Every section on this screen is a gateway** — tapping any card navigates to the full screen for that module.

3.1 Admin & HR Dashboard Layout

Admin / HR Dashboard		HR + Admin
● Hero Greeting Widget	Dark navy blob card — 'Good morning, [Name]' + date + role badge	
● KPI Summary Row	4 stat chips: Total Employees / Present Today / On Leave / Open Positions	
● Attendance Overview Card	Today's check-in count, late arrivals, absences — bar mini-chart	
● Leave Requests Pending	Count badge + list of 3 most recent pending leave requests	
● Payroll Status Card	Current payroll period status — processed / pending — with orange accent	
● Recruitment Pipeline	Open jobs count + applications this week + pending screenings	
● Recent Activity Feed	Last 5 system events — new hire, leave approved, appraisal submitted	
● Quick Actions Row	+ Add Employee / + Post Job / Run Payroll — blue icon buttons	

3.2 Employee Dashboard Layout

Employee Dashboard		Employee
● Hero Greeting Widget	Dark navy blob — 'Good morning, [Name]' + today's date	
● Today's Attendance Card	Clock-in time, status (Present/Absent/Late), Clock Out button	
● Leave Balance Summary	Remaining days per leave type — 2x2 pill grid	
● My Upcoming Leaves	Next approved leave with date range and type	
● Latest Payslip Card	Month, net pay amount, status — tap to view full slip	
● My Appraisal Score	Circular progress ring — last performance score	
● Recent Announcements	2 latest unread announcements — tap to open full list	

3.3 Dashboard Design Rules

- Hero widget: always dark navy (#0F172A) with animated blob circle elements — this is the brand signature.
- KPI chips: white card, 2x2 grid, blue bold number on top, muted gray label below.
- Cards scroll vertically in a single-column FlatList — no horizontal carousels on the dashboard.
- Quick Action buttons are icon + label, 56px circular blue background, arranged in a horizontal row.
- Section labels above each card group must be UPPERCASE with a 3px blue left-bar accent.
- Empty states: if data is unavailable, show a placeholder illustration + muted message. Never show blank space.

4

Employee Management

Directory, profiles, onboarding, and HR actions

The Employee module is the core of HR360. It gives HR and Admin a full view of the workforce — searchable, filterable, and actionable. Employees cannot access this module directly; they manage their own profile via the Settings screen.

4.1 Employee List Screen

Employee List		HR + Admin
● Search Bar	Full-width top bar — real-time name/email/department filter	
● Filter Row	Horizontal chips: All / By Department / Active / Inactive	
● Employee Count Label	UPPERCASE label — 'ALL EMPLOYEES (42)'	
● Employee Cards (FlatList)	Avatar Full Name Job Title Department chip Status dot	
● Card Actions	Tap → Detail. Long-press → Sheet with Edit / Delete / Message	
● Floating Action Button	Blue '+' FAB — bottom right — opens Add Employee modal	
● Pagination	Infinite scroll — loads next page automatically at list end	

Employee Card Design:

- Avatar: DiceBear Avataaars, 44px circle, bordered with 2px #0A66C2.
- Full name: bold 14px. Job title: muted 12px below. Department: blue pill chip.
- Status dot: green (Active) or red (Inactive) — 8px circle right-aligned.
- Card: white bg, 12px border-radius, 1px #E2E8F0 border, soft shadow.

4.2 Employee Detail Screen

Employee Detail		HR + Admin
● Profile Hero	Large avatar (80px) + full name + job title + department + status badge	
● Contact Row	Phone (tap-to-call) + Email (tap-to-mail) — icon buttons in a row	
● Personal Info Section	Date of birth, gender, national ID, address — read-only cards	
● Employment Info Section	Hire date, contract type, salary grade, manager — read-only	
● Attendance Summary Tab	This month: days present / absent / late — mini bar chart	
● Leave Summary Tab	Leave balance per type + recent leave history list	
● Payroll Tab	Last 3 payslips — month, gross, net, status chips	
● Performance Tab	Last appraisal score ring + competency bars	
● Edit Button	Top-right header action — opens Edit Employee modal (HR/Admin only)	

Design Note: The detail screen uses a sticky profile hero at the top with horizontal tab navigation (Attendance / Leave / Payroll / Performance) below it. Each tab is a separate scrollable view. Tab underline is 2px solid #0A66C2.

4.3 Add / Edit Employee Modal

Add / Edit Employee		HR + Admin
● Modal Header	'Add Employee' or 'Edit Employee' + X close button	
● Personal Details Section	First name, last name, email, phone, gender picker, DOB picker	
● Employment Details Section	Job title, department picker, hire date picker, contract type picker	
● Role Assignment	Role selector: Employee / HR / Admin (Admin-only field)	
● Status Toggle	Active / Inactive switch	
● Save Button	Full-width blue button — sticky at bottom of modal	
● Validation Errors	Inline red text below each invalid field on submit attempt	

Use native date pickers ([expo-datetime-picker](#) or [@react-native-community/datetimepicker](#)). Dismiss keyboard on tap outside the input area. Pickers open as bottom sheets on iOS.

5

Attendance

Clock in/out, records, summaries, and face recognition

The Attendance module covers daily clock-in/out (manual and face recognition), individual attendance records, and team-wide summaries for HR/Admin. It is one of the most real-time-sensitive modules in the app.

5.1 Clock Screen (Employee)

Clock In / Out		Employee
● Live Clock Widget	Large digital time display — current time, updates every second	
● Date & Day Label	Full date below clock — 'Tuesday, 31 March 2026'	
● Status Badge	Large pill: 'NOT CLOCKED IN' (gray) / 'CLOCKED IN' (green) / 'CLOCKED OUT' (navy)	
● Clock In Button	Large green button — 80px height — shows only if not clocked in	
● Clock Out Button	Large red button — replaces Clock In after check-in	
● Face Recognition Button	Secondary blue outlined button — 'Use Face ID' — opens camera	
● Today's Summary Card	Check-in time / Check-out time / Hours worked today	
● This Week Mini Chart	5-day bar chart — present/absent/late per day	

5.2 My Attendance Records (Employee)

My Attendance Records		Employee
● Month Selector	← Month Year → navigation header — arrows to change month	
● Summary Stats Row	Present / Absent / Late / Half-day counts for selected month	
● Calendar View (optional)	Mini calendar with colour-coded dates — green/red/orange dots	
● Records List	Daily rows: Date Check-in Check-out Duration Status chip	
● Status Chips	Present (green) / Late (orange) / Absent (red) / Leave (blue)	

5.3 All Attendance Records (HR / Admin)

All Attendance Records		HR + Admin
● Date Picker Header	Select date or date range to filter records	
● Department Filter	Horizontal chip row — filter by department	
● Summary Cards Row	Total present / Total absent / Late count / On leave count	
● Employee Attendance Table	Employee name Check-in Check-out Duration Status	
● Export Button	Top-right action — export to CSV (Admin only)	
● Tap Row → Employee Detail	Navigates to Employee Detail screen, Attendance tab	

5.4 Face Recognition Flow

- **Step 1:** Employee taps 'Use Face ID' button on Clock screen.
- **Step 2:** App requests camera permission via expo-camera (show permission rationale if denied).
- **Step 3:** Camera viewfinder opens full-screen with an oval face guide overlay.
- **Step 4:** On face detected: send image to POST /api/attendance/face/ endpoint.
- **Step 5:** Success: animate green ring around oval + 'Clock In / Out' confirmation overlay.
- **Step 6:** Failure: show 'Face not recognised' message with retry option.

6

Leave Management

Requests, approvals, balances, and calendar

6.1 Leave Requests Screen

Leave Requests		All (scoped)
● Hero Stats Widget	Dark navy blob — 3 stat chips: Pending / Approved / Rejected counts	
● Filter Tab Bar	All Pending Approved Rejected — bold blue active tab	
● Request Cards (FlatList)	Avatar + Name + Leave Type + Date Range + Duration + Status chip	
● Approve / Reject Actions	Inline action buttons on card — HR/Admin only	
● Tap Card → Detail Sheet	Bottom sheet: full request details + comment field + action buttons	
● FAB — New Request	Blue '+' FAB — opens New Leave Request modal	

6.2 New Leave Request Modal

New Leave Request		All roles
● Leave Type Picker	Dropdown: Annual / Sick / Casual / Maternity / Unpaid / Other	
● Date Range Picker	Start date + End date — native date pickers	
● Duration Display	Auto-calculated: 'X working days' — updates live on date change	
● Reason Text Area	Multi-line input, 4 rows, 500 char limit	
● Attachment Option	Optional — upload supporting document (sick note etc.)	
● Submit Button	Full-width blue — disabled until all required fields filled	

6.3 Leave Balance Screen

Leave Balance		All roles
● Balance Grid	2x2 (or 3x2) responsive grid of white cards — one per leave type	
● Balance Card	Leave type name + Days Used / Total Days + Utilisation progress bar	
● Progress Bar	6px height, border-radius 3, blue fill proportional to usage	
● Year Selector	Top selector to view balance for current or previous year	
● Accrual Info	Small caption: 'Accrues monthly' or policy note per type	

6.4 Leave Calendar (HR / Admin)

Leave Calendar		HR + Admin
● Month Calendar View	Full calendar — dates with approved leave shown as blue bands	
● Employee Filter	Search/filter to show one employee's leaves on calendar	
● Legend Row	Colour key: Annual (blue) / Sick (orange) / Maternity (purple)	
● Tap Date → Day Summary	Bottom sheet: who is on leave that day + leave types	

7

Payroll

Payslips, summaries, history, and payroll runs

The Payroll module uses orange (#F97316) as its secondary accent colour — the only screen group where orange replaces blue as the primary action colour. This creates a clear visual distinction for financial data.

7.1 Payroll Dashboard (HR / Admin)

Payroll Dashboard		HR + Admin
● Payroll Period Hero Card	Dark navy — current period (e.g. March 2026) + Run Payroll button (orange)	
● Summary Stats Row	Total employees paid / Total gross / Total net / Total deductions	
● Status Breakdown	Processed / Pending / On Hold — horizontal progress segments	
● Recent Payroll Runs List	Month Employees Total Net Status chip — last 6 months	
● Department Breakdown	Accordion list — expand per department to see payroll totals	
● Export Button	Export payroll report to PDF/CSV — top-right header action	

7.2 Employee Payslip Screen

My Payslip		All roles (scoped)
● Payslip Header Card	Company name + Employee name + Period + Payslip reference number	
● Earnings Table	Base salary / Allowances / Overtime / Bonuses — line items	
● Deductions Table	Tax / NHIF / NSSF / Loan repayments / Other — line items	
● Net Pay Banner	Large orange bold net pay total — full-width highlight card	
● Payment Info	Payment method / Bank / Date paid	
● Download Button	Generate & download payslip as PDF — orange button	
● Month Selector	← arrow Month Year → arrow — view previous payslips	

8

Recruitment

Job postings, applications, and AI-powered screening

Recruitment is an HR/Admin-only module. It includes job posting management, application tracking, and the Gemini AI screening engine that automatically evaluates and scores candidates.

8.1 Job Postings Screen

Job Postings		HR + Admin
● Stats Hero	Open Positions / Applications This Week / Pending Screenings — blob widget	
● Active Jobs Tab	Cards: Job Title + Department + Posted Date + Applicants count	
● Closed Jobs Tab	Same cards but with 'Closed' status chip and greyed out	
● Job Card Actions	View Applicants / Edit / Close Job — swipe right or long-press	
● FAB — Post Job	Blue '+' — opens Post New Job modal	

8.2 Post New Job Modal

Post New Job		HR + Admin
● Job Title Input	Text field — required	
● Department Picker	Dropdown from departments list	
● Job Type Picker	Full-time / Part-time / Contract / Internship	
● Description Text Area	Rich text or plain multi-line — job description	
● Requirements Text Area	Qualifications and requirements	
● Deadline Date Picker	Application closing date — native date picker	
● Publish Toggle	Publish immediately or save as draft	
● Post Job Button	Full-width blue — sticky at bottom	

8.3 Applications List Screen

Applications		HR + Admin
● Filter Bar	All Pending Screened Shortlisted Rejected	
● Applicant Cards	Name + Applied Job + Date + AI Score badge + Status chip	
● AI Score Badge	Circular score (0-100) — green >70, orange 40-70, red <40	
● Screen with AI Button	Per-card button — calls Gemini screening API for unscreened CVs	
● Bulk Screen Button	Header action — screen all pending applications at once	
● Tap Card → Detail Sheet	CV summary / AI screening report / scores / shortlist actions	

8.4 AI Screening Result Detail

AI Screening Result		HR + Admin
● Candidate Header	Name + Applied position + Date + Overall AI score ring	
● Score Breakdown	Skills match / Experience / Education — bar scores per category	
● AI Summary	Gemini-generated paragraph summary of candidate strengths/weaknesses	
● Key Skills Chips	Auto-extracted skill tags from CV — blue pill chips	
● Recommendation Badge	STRONG FIT / POSSIBLE FIT / NOT RECOMMENDED — colour coded	
● Action Buttons	Shortlist / Reject / Request Interview — full-width at bottom	

9

Performance & Appraisals

Reviews, analytics, goals, and competency scoring

9.1 Performance Dashboard Screen

Performance Dashboard		All (scoped)
● Hero Overview Card	Dark navy — company average score + this quarter label	
● My Score Ring	Large circular SVG ring — personal score 0-100, animated on mount	
● Department Breakdown	Animated bar chart — average score per department	
● Top Performers List	Rank 1-5 — avatar + name + score + rank medal badge	
● Score Trend Chart	Line chart — personal score trend over last 6 appraisal cycles	
● Rating Distribution	Donut chart — Outstanding / Exceeds / Meets / Below	

9.2 Appraisals List Screen

Appraisals		All (scoped)
● Cycle Selector	Dropdown — Q1 2026 / Q4 2025 / Annual 2025 etc.	
● My Appraisals Section	Cards: Cycle label + Overall score + Status + Reviewer name	
● All Appraisals Section (HR)	Same cards for all employees — with department filter	
● Status Chips	Draft / Submitted / Under Review / Finalised — colour coded	
● Tap Card → Detail Bottom Sheet	Full appraisal breakdown (see below)	
● FAB — New Appraisal	HR/Admin only — opens Create Appraisal modal	

9.3 Appraisal Detail Bottom Sheet

Appraisal Detail		All roles
● Header	Employee name + Appraisal cycle + Overall score badge	
● Competency Score Bars	Bar per competency: Communication / Leadership / Delivery etc.	
● Goals & Objectives Section	Accordion list — each goal with completion status + score	
● Manager Comments	Text block — reviewer written feedback	
● Employee Self-Assessment	Employee's own comments if self-assessment was completed	
● Signature / Acknowledgement	Employee acknowledgement status — signed or pending	

10

Departments

Organisational structure and team management

Departments

All (Admin for manage)

● Org Structure Header	Total departments count + total employees headline stats
● Department Cards	Dept name + headcount + HOD name + colour-coded icon
● Employee Avatars Row	Stack of 5 employee avatars + '+N more' label per card
● Tap Card → Dept Detail	Full list of employees in department with their roles
● Add Department FAB	Admin only — opens Add Department modal
● Edit / Delete	Long-press card → Admin actions

Department Detail Screen

Department Detail

All roles

● Hero Card	Dept name + headcount + HOD name + creation date
● Employees FlatList	Full list of employees in dept — same card design as Employee List
● Role Breakdown	Pie or donut chart — employees per role within department
● Attendance Summary	This month's attendance rate for the department
● Edit Department Button	Admin-only top-right header action

11

Notifications & Announcements

System alerts, announcements, and activity feed

Notifications

All roles

- Hero Blob Widget**Dark navy with animated concentric ring animation — notification icon
- Unread Count Badge**Blue pill chip — 'X unread' — resets as user scrolls through
- Filter Tabs**All | Unread | Leave | Payroll | System — bold blue active tab
- Notification Cards**Icon + Title + Body preview + Timestamp + Blue left bar if unread
- Tap to Mark as Read**Tapping card marks as read via API — blue bar accent disappears
- Mark All Read**Top-right header action — batch marks all as read
- Swipe to Dismiss**Swipe left to dismiss/delete a notification
- Announcements Section**Separate sub-section for company-wide HR announcements

Notification Types & Icons

Type	Icon	Colour Accent	Example
Leave Approved	calendar-check	Green	Your leave for 2–5 Apr has been approved
Leave Rejected	calendar-x	Red	Your leave request was rejected
Payroll Processed	banknote	Orange	Your March payslip is ready
New Announcement	megaphone	Blue	Company-wide announcement from HR
Appraisal Due	star	Purple	Your Q1 appraisal is due by 15 Apr
New Application	user-plus	Blue	New application for Software Engineer
System Alert	alert-circle	Gray	Maintenance scheduled for Sunday

12

Settings & Profile

User profile, preferences, security, and app config

Settings & Profile

All roles

● Profile Card Header	Avatar + Full name + Role badge + Email — tap to edit profile
● Personal Details Section	Name / Phone / Address — editable inline or via modal
● Change Password	Current password + New password + Confirm — with strength indicator
● Notification Preferences	Toggles per notification type — leave / payroll / system
● Face ID Setup	Enrol or re-enrol face for attendance face recognition
● Language / Region	Locale selector — date format, currency (future feature)
● About Section	App version / Terms of Service / Privacy Policy links
● Logout Button	Red outlined button at bottom — confirms before logging out

Edit Profile Modal

Edit Profile

All roles

● Avatar Editor	Tap avatar → choose DiceBear seed or upload photo
● Name Fields	First name + Last name inputs
● Contact Fields	Phone number + Alternative email
● Save Button	Blue full-width — calls PATCH /api/accounts/profile/

Design System Summary

Token	Value	Usage
Primary Blue	#0A66C2	Buttons, active tabs, icons, progress fills, accents
Dark Navy	#0F172A	Hero widgets, banners, screen headers
Orange	#F97316	Payroll module only — CTA buttons, net pay highlights
Light Blue Tint	#EFF6FF	Alternate row bg, input fields, tag chips, note boxes
Border Gray	#E2E8F0	Card borders, dividers, table lines
Muted Gray	#64748B	Captions, timestamps, secondary labels
Green	#059669	Success states, Present status, face recognition confirm
Red	#DC2626	Errors, Absent status, Rejected chips, logout button
Purple	#7C3AED	Performance / appraisal accents

Every screen in HR360 must follow this architecture guide. Build one module at a time, starting with Authentication → Dashboard → Employee → Attendance → Leave. Validate each module against the backend API before moving to the next. Backend: <https://hr360-api.onrender.com>
